Dr. Chinmay Anand Shinde¹, Dr. Rahul Nakil², Dr. Shweta Nakil³ (Page No 98-104)

Editorials:

PREVENTION OF COVID -19 AFTER UNLOCKING:

After unlocking people are eager to go out, wander and to release their stress of locking themselves from a long period. The guidelines of unlocking are being issued from the authorities for stepwise unlocking. The same things are to be expected to be followed strictly. The social distancing, hand-washing and wearing masks are proven to be very effective for the prevention of the corona infection. Also the preventive measures issued by the ministry of AYUSH e.g. use of some herbal remedies for the prevention of COVID -19 are also to be continued.

We hereby request you to be safe and healthy by using above measures.

Editor in Chief
